

AWS Practitioner | ⌚ 17 שעות תוכן | 75 שעות תירגול | מבחן

Deployment & Infrastructure.10

- CloudFormation •
- CDK •
- Beanstalk •
- CodeDeploy •
- CodeCommit •
- CodeBuild •
- CodePipeline •
- CodeArtifact •
- CodeStar •
- Cloud9 •
- (Systems Manager (SSM •
- OpsWorks •

AWS Global Infrastructure.11

- Route53 •
- Cloud Front •
- S3 Transfer Acceleration •
- AWS Global Accelerator •
- AWS Outposts •
- AWS WaveLength •
- AWS Local Zones •
- Applications Architecture •

Cloud Integrations.12

- Cloud Integrations •
- SQS •
- SNS •
- Kinesis •
- Amazon MQ •

Cloud Monitoring .13

- CloudWatch Metrics •
- CloudWatch Alarms •
- CloudWatch Logs •
- CloudWatch Events •
- EventBridge •
- CloudTrail •
- X-Ray •
- CodeGuru •
- Service Health Dashboard •
- Personal Health Dashboard •

EC2 Instance Storage.6

- (Elastic Load Balancing (ELB •
- (Auto Scaling Groups (ASG •
- Auto Scaling Groups (ASG) Strategies •

S3.7

- S3 Overview •
- S3 Security: Bucket Policy •
- S3 Website •
- S3 Versioning •
- S3 Server Access logging •
- S3 Replication •
- S3 Storage Classes •
- S3 Glacier Vault Lock •
- S3 Object Lock •
- S3 Encryption •
- AWS Snow Family •
- Storage Gateway •

Databases & Analytics.8

- Databases Introduction •
- RDS & Aurora •
- RDS Deployments Options •
- ElastiCache •
- DynamoDB •
- Redshift •
- EMR •
- Athena •
- QuickSight •
- DocumentDB •
- Neptune •
- QLDB •
- Managed Blockchain •
- DMS •
- Glue •

ECS , Lambda , Lightsail .9

- ECS, Fargate & ECR •
- Lambda •
- API •
- Batch •
- Lightsail •

Introduction.1

- Course Introduction •
- Creating an AWS Account •

Cloud Computing.2

- What is cloud computing •
- Types of cloud computing •
- AWS cloud overview •
- Shared Responsibility model •
- AWS Acceptable Policy •

IAM.3

- :IAM Introduction •
- Users, Groups, Policies •
 - IAM Policies •
 - IAM MFA •
- AWS Access Keys •
- AWS CloudShell •
- IAM Roles for AWS Services •
- IAM Security Tools •
- IAM Best Practice •

EC2 .4

- AWS Budget Setup •
- EC2 with EC2 User Data •
- EC2 Instance Types basics •
- Security Groups •
- Classic Ports Overview •
- SSH Overview •
- EC2 Purchasing options •
- Shared Responsibility modal •

EC2 Instance Storage .5

- AWS Budget Setup •
- EC2 with EC2 User Data •
- EC2 Instance Types basics •
- Security Groups •
- Classic Ports Overview •
- SSH Overview •
- EC2 Purchasing options •
- Shared Responsibility modal •

Other Services.19

- WorkSpaces •
- AppStream 2.0 •
- Sumerian •
- IOT Core •
- Elastic Transcoder •
- Device Farm •
- AWS Backup •
- Disaster Recovery Strategies •
- (AWS Elastic Disaster Recovery (DRS •
- AWS DataSync •
- (AWS Fault injection simulator (FIS •

AWS Architecting.20

- AWS WhitePapers •
- Well-Architected Framework •
- Operational Excellence •
- Security •
- Reliability •
- Performance Efficiency •
- Cost Optimization •
- Sustainability •
- AWS well-Architected Tool •
- Right Sizing •
- AWS Ecosystem •
- AWS Knowledge center •

VPC & Networking.14

- VPC, Subnet, Internet gateway •
- Nat Gateways •
- Security Groups •
- Network Access Control List •
- VPC Flow Logs & VPC Peering •
- VPC Endpoints •
- Interface & GateWay ◦
- Direct Connect •
- Site-to-Site VPN •
- Transit Gateway •

Security & Compliance.15

- DDOS Protection: Waf & Shield •
- Encryption with KMS •
- CloudHSM ◦
- (AWS Certificate Manager (ACM •
- Secrets Manager •
- Artifact •
- GuardDuty •
- Inspector •
- Config •
- Macie •
- Security Hub •
- Amazon Detective •

Machine Learning.16

- Rekognition •
- Transcribe •
- Polly •
- Translate •
- Lex + Connect •
- Comprehend •
- SageMaker •
- Forecast •
- Kendra •
- Personalize •
- Textract •

Account MGMT & Billing .17

- Organizations •
- Consolidated Billing •
- AWS Control Tower •
- Pricing Models of the cloud •
- Compute Optimizer •
- Billing & Costing Tools •
- Estimating Costs in the cloud •
- Pricing Calculator ◦
- Tracking Costs in the cloud •
- Billing Dashboard ◦
- Cost Allocation tags, Reports ◦
- Monitoring Costs in the cloud •
- Billing Alarms & AWS Budgets ◦
- AWS trusted Advisor •
- Support Plans for AWS •

Advanced Identity .18

- (Security Token Service (STS •
- Cognito •
- Directory Services •
- (Single Sign-On (SSO •
